

HS ALERTS Notification System

HS ALERTS provides you with real-time critical information on incidents in High Springs, including severe weather, road closures, missing persons, evacuations, and more.

You can receive time-sensitive messages by phone, text, email and push notifications with the Everbridge app. All Alerts will be targeted geographically, allowing you to receive localized, relevant alerts from High Springs officials.

Text messages: 888777

MONITOR LOCAL WEATHER

The City of High Springs is proud to feature two **WeatherStem** weather stations in the city, both part of the Florida Division of Emergency Management's **Florida Severe Weather Network** (FSWN) program. These **WeatherStem** units provide real-time weather conditions, including temperature, humidity, wind speed and direction, rainfall rate, and more.

Click the links below to view the **WeatherStem** in that location.
