

# High Springs for Business

High Springs is the perfect location for any size business venture. Incorporated in 1892 as a railroad town, our city is at the heart and soul of the Florida Transportation system. Located just minutes from the University of Florida in Gainesville, our area provides the technology and the stability your business needs to stay competitive. If you've ever traveled the I-75 Corridor in Northern Florida, you are familiar with our several access points to the interstate.

Despite our modern infrastructure, our community enjoys a rich heritage that provides an excellent quality of life for your employees and customers. High Springs offers the best of quick, easy access to modern technology and transportation while retaining a smaller-town feel removed just enough from the hustle and bustle of the 'big city.

We are a smaller community (roughly 6700 in city limits), and we invite your company, whether one employee or one million, to consider High Springs as your future home.
